

Compact. Practical.
It's downright compractical.

The Dental Company

sirona.

Introducing SIROLaser™ - Just the right size for you and your practice.

Thanks to its compact size (7.5" L x 3.4" W x 2.1" H) and weight (just under 1 lb.), the SIROLaser™ takes up less space than traditional diode lasers and can be easily transported between operatories. But don't let the size fool you. SIROLaser™ has all the power you need, providing optimum performance for soft tissue management applications in endodontics, periodontics and surgery. As a result your patients will love it because it reduces bleeding, pain, swelling and scar formation compared to traditional treatment options.

SIROLaser™ from Sirona – compare today and see the difference size can make.

Clinician Benefits

- ▶ Smallest and lightest diode laser available today
- ▶ Easy to use
- ▶ Precise tissue removal with minimal damage to surrounding tissue
- ▶ No worry 2-year warranty

Patient Benefits

- ▶ Less pain
- ▶ Less swelling
- ▶ Virtually no bleeding
- ▶ Minimal scar formation
